

Community Admin Guide

For people who run a community

Community admins set up the weeks, game days, and boards for their community.

Get access

- 1 Create a login on Game Town Square.
- 2 On the home screen, tap Request admin access.
- 3 Pick the community and add a note about who you are.
- 4 A Commissioner approves it. The next time you open the app, a message shows what you can now do.

How it's organized

Community, then game week, then game day, then board.

A game day holds the boards for one date, like Saturday Oct 10th.

Create a game week

- 1 Open your community and tap the + button.
- 2 Pick the league and season.
- 3 College Football and NFL: pick the week from the list. The weeks match ESPN, and the week page shows its dates.
- 4 Basketball, baseball, hockey, and soccer: pick the game date instead.

Create a game day

- 1 Open the week and tap New board set.
- 2 Pick the game day. Only dates inside that week are allowed. The name fills in, like Saturday Oct 10th.
- 3 You can change the name if you want.

Game Town Square

Community Admin Guide

Add a board

- 1 On the week page, tap Add board under the game day. On a board, you can also use the menu button and choose Add board.
- 2 Enter the sport, the top team, the side team, and their colors.
- 3 Enter the kickoff line, points per square, the points for each quarter and the final, and the bottom note.

Fill names and numbers

- Tap a square to enter or clear a name.
- Tap a number box to enter a drawn number, 0 to 9.
- You can add helpers to fill in a board for you: menu button, then Helpers, then Add helper. They need a login first.

Locking

- When the game is found on ESPN, its kickoff time is saved. The board locks itself 15 minutes before kickoff.
- At lock, blank numbers are drawn and empty squares are marked Plug.
- To lock early: menu button, then Lock board. Lock open boards locks every open board in that game day or week.
- Locked boards can't be edited or deleted. Only the Board Master can unlock, or a Commissioner when the Board Master allows it.

Scores

- Scores pull from ESPN on their own when the team names match ESPN.
- To type scores, use the menu button and choose Scores.

The board menu

- Save image, Share image, Copy link.
- Scores, Edit details, Lock board, Move board, Move up and Move down, Helpers.
- The game day's buttons: Add board, Lock open boards, Copy set link, Rename set, Move to week.
- Delete board, at the bottom. Open boards only.

Share with players

- Copy week link sends the whole week.
- Copy set link sends one game day.
- Copy link in a board's menu sends one board.
